x	<b>Luhdorff &amp; Scalmanini Engineering</b> Vicki Kretsinger Grabert Nick Watterson	X	<b>Ag Innovations</b> Genevieve Taylor Joseph McIntyre Shelly Smith		
<b>Guests:</b> Bryan Thoreson and Katherine Klug, Davids Engineering					

### Meeting Highlights:

- Bryan Thoreson of Davids Engineering did a presentation on the surface system water budget. The data that he presented does not yet account for groundwater inflow and outflow, which will be the next step in creating the budget.
  - The presentation examines human activity and changes in water and land use from 1991-2017.
  - This time span is used for both historic and current use, though GSA Collaborative members suggested additionally bringing a 10-year time span (2007-2017) to look at, to account for land use changes and extreme weather events.
- Luhdorff and Scalamanini Engineering reported that they will begin delivering draft chapters, figures and tables in January to the GSA Collaborative
- LSCE completed the Prop 68 grant application in November and have not yet received a response.
- Ag Innovations provided a Stakeholder Engagement update:
  - The GSA Collaborative received FSS funding for the Citizen Advisory Committee and Interbasin Coordination, and contracting has begun for Ag Innovations.

Planning for both of these, as well as public input sessions, will begin early next year.

- The MOU has been signed by Solano, Northern Delta, and City of Vacaville GSA, and will be reviewed in January by Sacramento County and Solano Irrigation District GSA Boards.

**Agenda:**

10:30-10:45 GSA Updates and MOU Update

10:45-12:00 Water Budget Components: Presentation - Bryan Thoreson, Davids Engineering
